Dear Senator Linda Collins - Smith

I simply want to thank you for all that you have done in your support with this delicate and serious matter of the legal kidnapping of my granddaughter Avani Gaia Wood. It has devastated and shocked our family to the core.

I pray that hopefully a law can be put in place for at least 3 days demanding documentation - proof of neglect, abandonment, no existing blood relatives and etc... that the allegations are proven true before ripping a child away from its family.

I do realize that there is a 21 day wait period is in effect now in 13 states - Arkansas being a state. However it was waived upon trust that the lawyer had performed his due diligence. Hopefully a three-day that cannot be waived by a judge or any court will take place soon after this traumatizing event.

I realize we're not the only family in the United States that have to suffer like this but hopefully we will be the last.

My daughter Jade is an amazing young lady whom has done an awesome job raising Ava with love and protection to the ugliness of this world. I can only imagine the emotional trauma that my granddaughter Ava is suffering not knowing where her mother and family is.

I know and trust that God has a plan. I sincerely apologize for not thanking you sooner but I've been an emotional wreck and when I stop and think about what my daughter have been through it saddens me to no end that being a mother myself I can't get my sugarbear to Jadey my lady.

Again I know God has a plan...

Again I am beyond thankful- can't put into words how grateful I am for your support.

May God Bless you and my baby girls through these trials and tribulations! May a hedge of protection engulf us and others suffering.

kindest Regards

Linda Wier

Thank you Ms. Wider.

Well these are things I hope the attorney finds out but we would like to know.

Yes ma'am and we too feel like we have put some time in and concern as well. We want her to keep us informed of this circumstance and the case it is critical to future issues but we never want children removed unless they have to be but this seemed a strange case and only until those questions are asked in front of a judge can we understand what happened.

The judge having to hear an emergency order has a lot weighing on him when he has to take an attorney's word for the situation. That attorney should be able to get the answers to the questions if the attorney mentioned or if the judge asked if other family members were around.

The attorney can contact me if he wants to at 870-378-1434 but we do have interest in the case.

Respectfully,

Senator, Linda Collins-Smith

Monday court was horrible...Jade is not allowed any contact with Ava.

I have absolutely NO confidence in the Arkansas Judiciary system when compliance with the laws are ignored when determining guardianship for a minor. I do have a fierce belief in GOD and know that this soon to will pass.

No subpoena - No summons served to Jade Cook in regards to request for guardianship of her daughter Avani Wood

No proof nor any evaluation was performed that must be made by a professional when filing for guardianship.

No independent investigation by Judge or lawyer

No proof provided that no other blood relatives existed.

No proof provided of abuse or neglect to Avani Wood.

No proof provided of Jade Cook mother of Avani Wood being locked in prison with out release.

No contact or request for D.C.F to investigate. When individual is receiving assistance from TANS or food assistance D.C.F is to be contacted to investigate.

No proof of Arkansas residency by Petitioner of guardianship Debroah Hoeft whom is a resident of Texas.

No proof that child and mother was or is homeless. (Jade and Ava have a beautiful home.)

Not one ethical consideration was taken when awarding guardianship to Debroah Hoeft. No measurement what so ever in the degree of attachment Ava has with her mother was not even considered. Nor any attachment to any other of her immediate family members. Within a matter of hours Deborah hires an attorney and then is seen by a judge and awarded guardianship. I am so perplexed over how easy it is to legally kidnap a child.

Parental alienation allowed by the court and Debroah Hoeft is serious child abuse. Allowing my 5 year old granddaughter Ava to suffer emotionally is mind blowing!

I also want to point out another way the system failed. When I tried to report my granddaughter Avani missing I contacted Jonesboro, Ar. police and was informed they could not file missing child report that I would have to call Pocahontas, Ar. police since the child lived in Pochontas, Ar. Upon calling Pocahontas police they said they could not file report since child went missing in Jonesboro, Ar I would have to file report there. It took over 24 hours for me to finally get a report filed.

Have you heard back from POCAHONTAS Police Department? What was the final outcome?

Also, you may want to talk with her and her attorney on the phone or in person. Ask all the questions and ask him what the judge said?

Please let me know what the attorney says and I told her once she saw the order contact me to let me know what it says. I just asked her if the questions she has have been responded to at her trial.

Thank you for keeping me informed. Jade did not have the order to go over with anyone.

Apparently it is OK for Deborah to break into jades house take all of Ava toys and clothes. It's OK to take your time get a missing child report finalized. It's OK for Deborah to alienate Ava from her mother - her life line.

Why would you think I haven't talked to the lawyer? Elzibeth and I have talked to the lawyer. He is afraid of the judge. I asked him to appeal. I asked him to try get a different judge since this is the same judge I was in front of with Jade when she was 15. Jades Dad filed a emergency paperwork saying Jade wasn't going to school. John threatened me at that time saying if I didn't stop with the child support he was going to make my life living hell in Arkansas. Judge King gave Jade to John at that court hearing and John drove from court to the police station in Walnut Ridge told the police he wasn't going to be responsible for her and my daughter was taken to D.C.F. Judge King kept Jade in D.C.F and was in motion to have her put in foster care however his mother died and judge king was replaced with another judge whom found it insane that Jade was even in D.C.F and facing foster care. He released Jade immediately to me. Jade was in D.C.F for 6 months.

I explained to the lawyer this is the same judge that my ex-husband stood in front for child support and changed an order already in place from Florida.

### **Court of Appeals of Arkansas, Division I.**

**OFFICE OF CHILD SUPPORT ENFORCEMENT, Appellant, v. John R. COOK, Appellee.**

**No. CA 97-444.**

**Decided: January 28, 1998**

The attorney is afraid of the Judge he says if we appeal or move for another Judge that it would upset Judge King and make things even worse.

It is court ordered that Jade - Elzibeth - Taylor - Deborah are to all take hair folic drug test. If Deborah passes her drug test Jade is to pay for her and Taylor's drug test. Each person is to pay for their own drug test of 250.00\$

I am forwarding non stamped or signed documents Jade received this past Monday.

I am now in process of writing to Governor of Arkansas. Attorney General. Reporting and requesting an investigation on the Judge and both lawyers and anyone else that can hopefully help shed light on how and why was it so easy for Deborah to legally kidnap Ava. Why isn't anyone concerned about the child abuse the Judicial and Deborah has blatantly allowed Ava to suffer?

Good Day!

I just want to point out whats even more disturbing is Taylor Hoeft filed for paternity rights in Florida on 3-12-14 | 8-23-16 against Jade Cook and Matt Wood the fact that Florida courts dismissed his case for paternity leaving Taylor Hoeft with no paternity rights over Ava.

How can Debroah Hoeft blatantly lie and omit this fact? She said in her petition that Taylor Hoeft had paternity and gave her permission to take Ava.

Why is Judge one sided?

Judge King was and is very aware that this evidence is available. Meaning on Wednesday 8-10-16 (2 days after Judge King Awarded guardianship) Jade - myself 5 other family members waited all day to inform Judge King of this valuable information. He informed us to get a lawyer and then we could present it to him.

My - Elizabeth - Jades lawyer had this information and did not or could not provide this in court this last hearing. 9-19-16

How can Arkansas - Judge King change, over rule, modify ignore important sensitive documents from State of Florida indicating Taylor Hoeft has no paternity rights? How can Judge King now say and recognize or give Taylor Hoeft - Deborah Hoeft paternity rights - guardianship?

Why isn't anyone compelled to recognize the error - fraudulent - deceiving information that illegally put my sweet little Ava in harms way - allowing mental abuse to this sweet innocent child?

I know you said you had interest in this sensitive delicate matter and I want to know how you can help get Ava back? If you can't help can you point us in the right direction?

I keep thinking how are we to get Ava back safely? If Deborah Hoeft illegally took Ava and has threaten in past before all of this occurring in Arkansas that she was going to take Ava.

How are we to get Ava back?

I fear with the access she has to millions of dollars that she has bragged about before that she can simply disappear with Ava.

I fear for my daughters safety in Arkansas and am begging her to move back to Florida. I fear for her safety and protection because Jade filed a police report in regards pressing charges because of her father breaking and entering to her home and stealing from her only for police department to dismiss because John said he had written permission from jade to do so but did not have to show document with her signature.

Also Jade filed report wanting to press charges against Deborah Hoeft breaking and entering. She stole ALL of Avas toys and clothes. Jades computer passport drivers license and this was dismissed because she said door was unlocked and John allowed her in the house.

What do you suggest? How can you help?

Kindest regards,

Linda Wier

Also Jade and Ava aren't even Arkansas residents. It takes 6 months to become resident in Arkansas. They just moved there in June 2016 so Jade could finish college in fall. I am just so beside myself. Ava needs to come home.

I can't sleep at nights. I can only imagine how my little sugarbear feels.

I just can't believe how easily she manipulated Arkansas into doing what she wanted. Friday afternoon she gets a lawyer 8-5-16 and Monday morning

8-8-16 she has Guardianship of Ava.

Her check for bond on guardianship for Ava and check to her lawyer had not even been deposited nor cleared. Court hands Ava over to Deborah before finances are even deposited and verified? I find that really strange!?!

Taylor Hoeft and Debroah Hoeft tried this in Florida and hence after 2 years in court - Florida courts asked probed due diligence and no rights were given to them.

Jade told Taylor from the get go when she was pregnant that it could be him or Matt could be possible father. Taylor and his mother Deborah both told her to go have an abortion. They didn't want anything to do with the baby

Matt Wood father on birth certificate in Florida where Ava was born told her that regardless of whether he was or not the father he would love the baby just as if he/she was his. How do think Matt got on certificate? Taylor had no care to be father nor does he now. His mother pushes him to do so since she pays for his car, cell and sends him money. He's a puppet on her strings.

I feel so bad for Ava and what she is going through. Abandonment she must be feeling. Having to call Deborah mommy is sickening! Not being able to talk to her mother - me or my mom daddy Matt all of us who raised her!

Imagine she is wandering where her family is.

Ava has never been around her boyfriend Lee till coming to Arkansas. Ava does not know Deborahs 80 year old mother that she leaves her with nor her daughter Brittany being this is 1st time meeting those people. She has been around Deborah when she was 2 years old for Christmas visit. Again Deborah had a couple days with Ava 2 years ago when she came down to meet with lawyer for getting Florida try to recognize paternity rights for her son. That's when I met her. I've only met her once in the last 6 years.

Then this last visit in Arkansas is when Ava visited with her. First day of kindergarten has been taken from mommy daughter. So much mental anguish abuse by Deborah!

I feel and know Arkansas can revoke guardianship and allow us to get Ava immediately. Investigation request for both layers in Arkansas need to be filed as well as for the Judge. Governor- Attorney General of Arkansas need to be notified. Arkansas Supreme Court as well as our United States Supreme court. Arkansas aided in the kidnapping of Ava. Can you talk to the Governor? I know he has grand kids and he has power to make this right. I know he would care about this delicate matter. If a Governor can pardon death row can't they get kidnapped kids?

I cant imagine what Deborah hoeft and Taylor Hoeft did was legal. I always thought perjury was illegal. Isn't that a felony in Arkansas? Kidnapping?

A innocent child life and mental well being is being abused and neglected both by Arkansas and Deborah Hoeft.

What can you do to help? Please advise.

Kindest regards

Linda
